Zimmer Institute

Learn. Do. Excel.™

MEDICAL EDUCATION
HIP & KNEE

Course Overview

This course is designed to provide participants with an interactive opportunity to learn about and discuss simple to complex revision scenarios including instability, infection, stiffness and loosening in the hip and knee joints. This course is appropriate for community and specialized orthopaedic surgeons who perform revision hip and knee surgeries. The course utilizes faculty-led lectures, small group discussions & difficult case reviews to enable a better understanding of key strategies for overcoming the difficulties in revision joint arthroplasty. Patient selection, preoperative planning, intraoperative difficulties and patient follow-up will be addressed.

Objectives

Upon completion of this training activity, the participant should be able to:

- explain proper planning and diagnosis in revision hip and knee surgery, as well as understand best practices for implant removal
- predict issues that may result when performing revision joint arthroplasty and address perioperative issues such as infection and bone loss
- discuss the various products available in the revision product armamentarium and match those with patient indications

Zimmer Products

Products to be discussed during this two-day program will be:

- *Zimmer® NexGen®* LCCK and Rotating Hinge Knee Systems
- *Zimmer®* Segmental System
- *Trabecular Metal™* Augmentation
- *Zimmer® Trabecular Metal™* Acetabular Revision System
- *ZMR®* Hip System
- *Revitan®* Revision Hip System & *Wagner SL Revision®* Hip Stem

Save the Date! May 11 & 12, 2012
